

DYNAMICALLY REDISTRIBUTING SHAREABLE RESOURCES
OF A COMPUTING ENVIRONMENT TO MANAGE THE WORKLOAD
OF THAT ENVIRONMENT

Abstract of the Disclosure

5 Allocation of shareable resources of a computing
environment are dynamically adjusted to balance the workload
of that environment. Workload is managed across two or more
partitions of a plurality of partitions of the computing
/environment. The managing includes dynamically adjusting
10 allocation of a shareable resource of at least one partition
of the two or more partitions in order to balance workload
goals of the two or more partitions.
